JIVAN NARAYAN PATKAL

AI-Powered Data Analyst | Business Intelligence | Python • SQL • Power BI • AWS S3
Ahmednagar, Maharashtra
+91 7499430252 | patkaljivan700@gmail.com
LinkedIn: www.linkedin.com/in/jivan-patkal-ab446226b/ |Portfolio: https://jivanpatkal.github.io/portfolio/

PROFESSIONAL SUMMARY

Results-driven Data Analyst with hands-on experience in Python, SQL, and Power BI, specializing in transforming raw data into actionable business insights. Proven ability to analyze datasets of 15,000+ records, build scalable dashboards, and automate reporting workflows. Strong foundation in EDA, ETL pipelines, and data visualization, with growing expertise in AI-driven analytics and cloud-based data solutions.

TECHNICAL SKILLS

Programming & Data Analysis: Python (Pandas, NumPy, Matplotlib), SQL
Data Visualization & BI: Power BI (Advanced DAX, KPI Development, Interactive Dashboards)
Data Analysis Techniques: Exploratory Data Analysis (EDA), Data Cleaning, ETL Pipelines, Statistical Analysis
Databases: MySQL (Joins, Subqueries, Query Optimization, Data Extraction)
Cloud & Tools: AWS S3, Excel (Pivot Tables, Power Query)
AI & Automation: GitHub Copilot, ChatGPT, Gemini, Power BI Copilot, Automated Reporting Workflows

PROJECT EXPERIENCE

AI-Powered Data Analytics System

Live Demo: https://ai-data-analyst-7ggzg56emdslx6uzbhzuqz.streamlit.app/

- Built an AI-powered data analytics system to automate **data cleaning, analysis, and dashboard generation** from raw datasets
- Implemented intelligent workflows using **Python, Pandas, and AI tools (LLMs)** to handle missing values, duplicates, and data formatting
- Developed **interactive dashboards** using Power BI/Plotly for real-time insights and visualization
- Enabled automatic detection of column types and generation of **AI-driven insights and summaries**
- Reduced manual data preprocessing effort by **40%+**, improving analysis efficiency
- Designed end-to-end pipeline from **data ingestion → processing → visualization → insight generation**

Business Pulse – Real-Time Data Analytics Dashboard

GitHub : https://github.com/Jivanpatkal

- Performed data extraction, transformation, and analysis on 15,000+ simulated business transaction records using SQL and Python.
- Conducted exploratory data analysis (EDA) to identify revenue trends, customer behavior, and product performance insights.
- Cleaned and transformed raw datasets using Pandas, improving data accuracy and reducing redundancy by 25%.
- Developed interactive Power BI dashboards with KPI metrics, revenue tracking, category-level performance, and profitability analysis.
- Created 12+ advanced DAX measures for revenue growth analysis, discount impact analysis, and contributi

Cloud-Integrated Data Pipeline & Dashboard Development

- Built end-to-end ETL workflow integrating AWS S3 cloud storage with SQL-based transformation and Power BI visualization.
- Retrieved structured datasets from cloud storage and performed SQL-based data transformation and aggregation.
- Designed business intelligence dashboards with automated refresh configuration for near real-time reporting.
- Strengthened understanding of cloud-based data ingestion, data warehousing concepts, and BI tool integration.

Customer Shopping Behavior Analysis

GitHub: https://github.com/Jivanpatkal/Customer-Behavior-Data-Analyst-Portfolio-Project

- Analyzed 10,000+ customer purchase records using SQL joins, aggregations, filtering, and grouping techniques.
- Conducted statistical analysis and EDA using Python to identify purchasing trends and segmentation patterns.
- Generated actionable business insights to improve customer targeting strategies.
- Built Power BI dashboards for customer segmentation, sales forecasting trends, and revenue analysis.
- Automated data cleaning workflows, reducing manual data preparation time by 20%.

E-Commerce Sales Dashboard

GitHub:https://github.com/Jivanpatkal/Zepto-E-commerce-SQL-Data-Analyst-Portfolio-Project.

- Analyzed multi-dimensional sales dataset (8,000+ records) using SQL and Excel for revenue and profit analysis.
- Validated and cleaned datasets to ensure reporting accuracy and data integrity.
- Developed KPI-driven dashboards including monthly revenue trends, regional analysis, and category-level performance.
- Optimized DAX calculations for improved reporting clarity and visualization efficiency.

EDUCATION

Master of Science (Chemistry) | 2023 – 2025
New Art Commerce & Science College, Ahmednagar
Percentage:72%
Bachelor of Science (Chemistry) | 2020 – 2023
Pemraj Sarda College, Ahmednagar
CGPA: 8
Higher Secondary Certificate (HSC – Science) – 78.23%
Secondary School Certificate (SSC) – 86.20%

CERTIFICATIONS

- AWS Cloud Practitioner Essentials – Amazon Web Services (Jan 2026)
- Data Analyst Certification – One Roadmap (Sept 2025)
- SQL for Data Analysis – LinkedIn Learning (Dec 2025)
- Master in Business Intelligence: DAX, Power BI & Excel – LinkedIn Learning (Dec 2025)

ACHIEVEMENTS

- Secured Top 5 Rank in Bachelor's Degree at Pemraj Sarda College.
- National-Level Silver Medalist in Table Soccer.
